

LOUISVILLE TIMES.

JIM O. BULLOCK & JOHN G. MORSE, EDITORS

CITY OF LOUISVILLE.

FRIDAY, JANUARY 9, 1857

For his practice, the editor of the Journal is exceedingly unkind in the utterance of falsehood. He can't tell an untruth, without immediate exposure. He is the chummiest liar, we know.

A few days ago he charged Governor Willard with Free Soilism; and to substantiate the charge, uttered a falsehood out of whole cloth. He asserted that Willard had been a member of a party convention some years ago, and that in that convention he had offered certain Abolition or Free Soil resolutions, which he, the editor, published. That was a clincher, taking the editor of the Journal as the only witness. But he only uttered one falsehood to bolster up another, and was so silly as to imagine that "all the world and the rest of mankind" thought, as he professed to believe, that Willard was an Abolitionist.

Now it happened that Governor Willard was never a member of any party convention, and that he never offered the resolutions printed by the Journal or any other Free Soil or Abolition resolutions. It happens that he never saw the aforesaid resolution until he saw it in the Journal; and it further happens that the editor of that paper began when he made the charge, the other day, that Willard had nothing whatever to do with the matter. Some months ago the editor made this same charge against Willard, and it was then thoroughly disproved.

We now assert that the editor, knowingly and wilfully, has charged that upon Gov. Willard, of which he is guilty. He cannot and dare not deny this indictment. We challenge him to do so. Let him speak out, or by his silence acknowledge himself a scold and a wilful calumniator.

EXPORTS AND IMPORTS OF THE UNITED STATES.

From the tables accompanying the annual report of the Secretary of the Treasury, we learn that during the fiscal year ending June 30th, 1856,

the exports from the United States amounted to \$31,566,380, exclusive of \$16,378,878 foreign goods re-exported.

To the British dominions we exported about \$185,800,000; to the French \$12,600,000; to Belgium \$4,349,127; to Brazil \$85,128; to Portugal \$3,268,475; to Sardinia \$1,832; Mexico, Chile, and China, we exported between \$2,000,000 and \$3,000,000 each; to Sweden, Denmark, Turkey, Africa, Hayti, New Granada, Venezuela, Buenos Ayres, and Peru between \$1,600,000 and \$2,000,000 each.

The remainder of our exports was divided in sums ranging from \$4,000 to \$72,000, between Russia, Prussia, Tuscany, the two Sicilies, the Papal States, San Domingo, Uruguay, Ecuador, the Sandwich Islands, Japan, China, the whale fisheries, and German ports other than those mentioned—the Sandwich Islands receiving the highest amount and Japan the lowest.

The imports into the United States for the same year were \$31,636,942. From the British dominions we imported \$154,056,748; from the French \$49,249,803; from Spain \$32,482,700; from Brazil \$15,262,647; from China \$10,454,486; from Bremen \$11,846,820; from Holland \$4,815,436; from Belgium \$3,166,511; from Venezuela \$4,302,692; from Mexico \$3,568,681. From Hamburg, Buenos Ayres, New Granada and Chile, we imported between \$2,000,000 and \$3,000,000 each; from Tuscany, the two Sicilies, Africa, and Hayti, between \$1,000,000 and \$2,000,000 each. The remainder of our imports was divided in sums ranging from \$16,821 to \$881,427, between Russia, Sweden, Portugal, Sardinia, the Papal States, Prussia, Austria, Turkey, Egypt, San Domingo, Peru, Ecuador, the Sandwich Islands, Japan and the whale fisheries—Sweden sending us the highest amount, and Japan the lowest.

THE ATLANTIC TELEGRAPH WILL ACCOMPLISH.—It is stated that when the submarine telegraph across the ocean is finished, the transactions in stocks, the closing price in consols, the state of the cotton market, will be sent from London and Liverpool every day at three o'clock in the afternoon, and will in consequence of the difference of time—some five hours—be received in the leading Atlantic cities of the United States before noon, forming the basis of operation here for that day; in other words, the doings of the London Exchange will be known here before change hours, and will be published in the paper of the same evening before they are laid before the British public. Transactions on the Paris Bourse will be sent in the same manner. The expense, however, will be very heavy, as the telegraph tolls will be about one dollar per word.

REV. DANIEL WALDO.—A resolution has passed the Legislature of Iowa asking Congress to enlarge the territory of the State by extending the northern boundary parallel from the Big Sioux directly across to the Missouri river. The corner which would thus be annexed is at present part of Minnesota, but is a wilderness not included in any land district, and designated to be the nucleus of the new Territory of Dakota after the admission of Minnesota as a State.

DEATH OF MRS. DANIELS.—The telegraph has informed us of the death of Mrs. Daniels, wife of Judge Daniels of the Supreme Court of the United States. She was suddenly burned by her clothes catching fire from a candle. The New York Tribune's Washington correspondent says:

Part of the body was much charred and the whole contour sadly disfigured. She was the wife of Judge Daniels of the Supreme Court, and daughter of Dr. Harris of Philadelphia, long the friend of the most eminent men in the country. Her consciousness was preserved almost to the last moment, and she shivered to her attendants, that just before the accident happened she had been reflecting upon the degree of happiness with which she had been blessed. Her marriage attracted much remark in society a few years ago from the disparity of ages, but it was singularly fortunate in mutual devotion and satisfaction.

KISSING A BACHELOR.—A correspondent relates the following incident:

We have a friend—a bachelor friend—very frank, manly, and direct without a single affectation, and, as a matter of course, overflowing with affection for his husband. Now this loveable bachelor, in his first meeting with his wife, could scarcely survive the loss of her, her husband, her brother, and her children, who had recently returned from a long absence.

MISTAKES OF THE PRESS.—The Albany Journal explains some typographical blunders that had crept into its columns, and adds the following good story:

These mistakes of the Press remind us of the misfortune that befell Secretary Dobbins about his arrival in the North. When he reached to Boston, he found the telegraph announced his arrival, abbreviating his title as usual, to "See' Dobbins." The disputed as printed in the Boston papers "Stacy Dobbins" and to the Philadelphia Journal gravely announced that "Lyon Dobbins" had arrived at Portland." The astonished reader may say, "How?" said he in reply; and then, in an undertone addressed to his followers he concluded: "Boys it is not the girl in red!"

THE CABINET.—The Washington correspondent of the New York Journal of Commerce thus writes:

Mr. Buchanan's early advent is expected with the greatest interest. It is now known that he will be here before February, and probably as early as the 20th or 25th of January; and here, in the action of which he will be compelled to afford to the country some indication of the policy of his administration. No definite arrangements have yet been made, but the Buchanan men have generally thought that, as matters now are, he will select General Cass for the Department of War, and Mr. Howell Cobb, of Georgia, for the Department of the Treasury.

J. F. THE greatest preservative of beauty known to modern science is Professor Wood's Hair Restorative and Cosmetic. Among the most important features of female beauty, is a luxuriant head of hair and a fine complexion, both of which should be guarded as a sacred treasure, for either may be lost by neglect, or preserved by the use of the above named article; delay is dangerous. To be had of the agents at 74, Fourth street.

GREAT EXCITEMENT.—Ninety-six Third street is crowded from morning till night. Everybody seems intent on buying Porter's Oriental Life Liniment; everybody uses it, and everybody likes it and tells their neighbors about it; consequently the demand is tremendous and constantly increasing. Besides the large amount sold at wholesale to the trade, the retail sales at the principal depot average 300 bottles per day. A whole ream of paper would not contain all the certificates that are voluntarily offered in its favor. For the cure of rheumatism, chilblains, and changed hands it is considered unparalleled by those who have used it.

If you want a fine likeness of yourself go to Hough & Co.'s National Picture Gallery, 22 Fourth Street, between Market and Jefferson, over Talbot's variety store, and get one of those beautiful glass pictures, which for beauty and fidelity of features, expression and drapery, far surpasses any other kind of pictures. Dark drapery produces a more pleasing effect on either children or adults. Full weather is preferable to bright, except for small children. Children can be taken without fail, in from two to eight seconds.

Prices from \$1.00 to \$15.00.

NEW ALBANY & SALEM RAILROAD.—DUE to St. Louis and Chicago.—This road is the speediest route to Chicago and the Northwest. Passengers leave the depot at New Albany at 12 M. and arrive at Chicago at 7 o'clock the following morning. This train connects at Terre Haute with the St. Louis and Cairo trains and with all the trains leaving Chicago in every direction. The road is in capital condition and recently a number of splendid passenger cars have been put on it. An omnibus will call in any part of this city for passengers and deliver them at the depo in New Albany free of charge. This road is one of the best in the country and its management could be no better. It is the cheapest and most expeditious route for Chicago, St. Louis and Cairo. It makes direct connection with all roads and for all points, East, West and South.

For tickets or information apply at the offices Main street opposite the Galt House.

Dr. Robb's theory is, that all diseases originate in the blood, and it would seem that the rapid recovery of his patients, under a course of treatment after a short stay in the mountains, is evidence that his pathology is correct. What is This?

Nothing Strange But True!

GREAT WAS THE FALL OF ADAM AND EVE! Her secret is the rise of Wesley's Converts. They are the greatest vegetarians yet discovered for the cure of Chills and Fever, of Ague and Grippe, and the like. They are the most popular converts generally to be found in our country. I will allow good men to do what they can for me, for a few dollars.
